HEY, GANG!

It's Fe-bro-ary! In the *KZ* calendar, that's the month of bromance, friendship, and luuurve! We're celebrating all those things in this ish, starting with the comical tandem of LEGO Batman and LEGO Robin. Raise your hand if you're psyched for *The LEGO Batman Movie* like I am!

There are loads more bromances and OTPs in our fave toons, flicks, and anime, and we're totes shipping ALL OF THEM. And don't forget the sidekicks! They may be the lesser-celebrated halves of our fave dynamic duos, but this month, they get a well-deserved slice of the limelight.

LEGO Batman's motto, A.B.R., stands for "Always Be Recording," right? Welp, we have our own versh of A.B.R.—Always Be Reading, folks! In this ish, we officially kick off our year-long reading radvocacy to get y'all to bury your noses in books, because reading is rad! (And hey, you're reading right now, so hats off to you!) In fact, we've decided to start a *KZ* book club of sorts. Let's all read *Fantastic Beasts and Where to Find Them* this month, and we'll chat about it on Facebook on February 24. Save the date!

Speaking of dates, this V-day, think of someone you love and do something nice for 'em. For team *KZ*, it's a no-brainer—we luuurve y'all, KZers, and we made something super nice (A.K.A. this ish) just for ya!

POP-SICLE

TOP TITLES THAT ARE TOO COOL FOR SCHOOL!

That's Our Jam!

Grab a brotha and perform a numba! Sing these bromantic tunes and show that your friendship is legit.

"You've Got a Friend in Me" Randy Newman

Bro-luv Lyric: "If you've got troubles, I've got 'em, too. There isn't anything I wouldn't do for you."

Who could forget this iconic song from the *Toy Story* flicks? Cosplay as Woody and Buzz while you're performing this.

"Count on Me" Bruno Mars

Bro-luv Lyric: "You can count on me like 1, 2, 3. I'll be there."

This tune is exactly what friendship should be: simple and straightforward. No lies, just loyalty, bruvs!

"F.U.N." SpongeBob Squarepants

Bro-luv Lyric: "U is for you and me."

If this song could cheer up the cranky Plankton, then you know this is the real deal. A good bro teaches ya how to be a better person, for realz!

"Friends" Adventure Time

Bro-luv Lyric: "Just hug and it's agreed: Your love will not delete."

Oh noes! Did you and your bud argue? A warm hug and a yummy snack is all it takes to make things better, man.

Fictional Squadventure

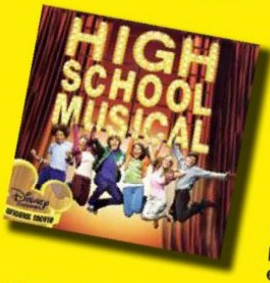
Fams and friendship take center stage in these page-turners.

"If I Didn't Have You" Billy Crystal (Mike) and John Goodman (Sully)

Bro-luv Lyric: "You and me together, that's how it always should be."

Mike and Sully are real #BroGoals with their radventures and monsterrific shenanigans.

"All in This Together" High School Musical Cast



Bro-luv Lyric: "We're not the same, we're different in a good way."

Just 'cause you and your BFF enjoy different things doesn't mean you don't make a great team. Opposite personalities totes complement each other.

"Drag Me Down" One Direction

Bro-luv Lyrics: "All my life, you stood by me when no one else was ever behind me."

A bro should always have a bro's back—no if's and but's! Y'all can make it through anything if you support each other along the way.

"One Call Away" Charlie Puth

Bro-luv Lyric: "I'm only one call away. I'll be there to save the day."

Whether it's about crush probs, achievements unlocked, or fail whale moments, your best bud always has time for a chat.

"I'll Be Your Friend" Brad Breeck

Bro-luv Lyric: "I've got a tattoo of you on my heart."

We Bare Bears sibs Grizz, Pan-pan, and Ice Bear may annoy each other at times, but in the end, they just luuurve each other too much to keep fighting.

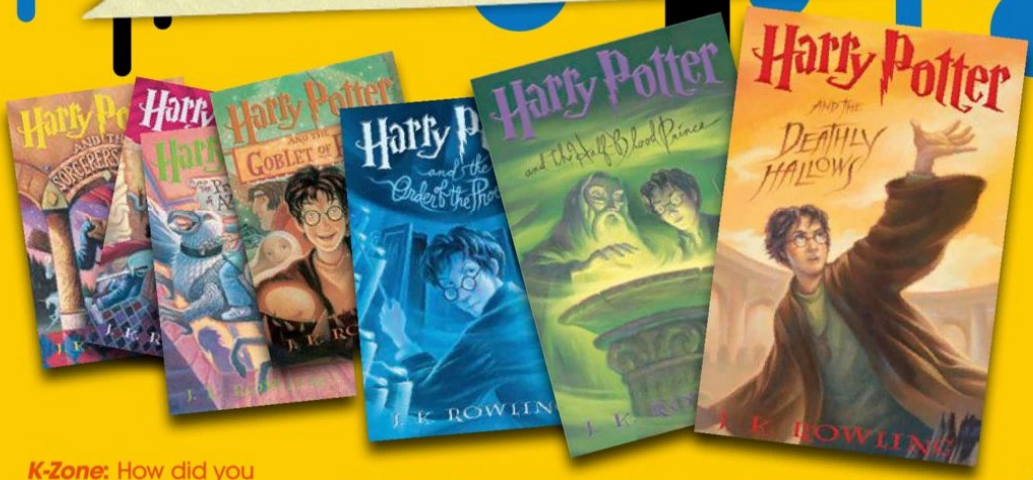
EDITOR'S PICK

KZ EIC MICAH THINKS THE *HARRY POTTER* SERIES IS TOTES ENCHANTING!



Harry Potter
Harry Potter and the Goblet of Fire
Harry Potter and the Order of the Phoenix
Harry Potter and the Half-Blood Prince
Harry Potter and the Deathly Hallows
J.K. ROWLING

K-Zone: How did you get into the series?

Micah: My uncle introduced me to Harry Potter way before the movies came out. I was instantly hooked!

KZ: Why do you love the *Harry Potter* novels?

M: J.K. Rowling's intricate wizarding world was just so easy to love and lose yourself in. I liked her clever word play in spells and place or character names. Plus, Harry, Ron, and Hermione are definitely #SquadGoals!

KZ: Which book is your fave?

M: I'd go with Prisoner of Azkaban (which is also my favorite HP flick). It was cool to find out Sirius Black was a good guy! And Hermione using a time-turner to attend all those classes was brilliant. She's my fave character. The later books were epic, too, but the deaths were devastating! :(

KZ: How did you feel after reading the entire series?

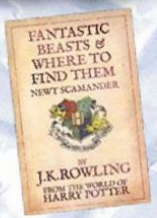
M: Super sad. It felt like the end of an era, but thankfully, J.K.'s still churning out new HP stuff—keepin' the dream alive for us Potterheads!

KZ: Any other memories you have of the book series?

M: When I visited Edinburgh, Scotland, I went to The Elephant House, a café where J.K. Rowling spent tons of time writing the early Potter novels. It was amazing to be in the spot where much of the magic happened.

DO YOU LOVE BOOKS?

Tell us about your fave title or series! Email your name, photo, and book review to **kidsrule@kzone.com.ph** and you might get featured on this page.



This month, let's read Fantastic Beasts and Where to Find Them by J.K. Rowling, a must-have textbook if yer a wizard or a witch. Log in to Facebook on **February 24, 8:00 PM** for a book discussion with the KZ staff!

Paper Planes

paperplanes.world

Dispatch a paper plane into the virtual world by visiting this website on your phone. You'll stamp a sheet of paper with your location, fold it into a plane, and send it out by flicking your phone as though you're launching a paper plane IRL. You can also catch planes, see where they're from, and add your own location stamp before releasing them back into the ether. Awesome!

WHAT'S I

Learn the stories behind

ICHIGO KUROSAKI (BLEACH)

Ichigo means "strawberry" in Japanese. But that ain't all! The shinigami's name can be split into two words: ichi, meaning "one," and go, meaning "to protect." This translates to "one who protects," which is deffo perf for our hero.

NATSU DRAGNEEL (FAIRY TAIL)

The mad mage's name means "summer" in Japanese, which befits his fiery, hotheaded personality.

USAGI TSUKINO (SAILOR MOON CRYSTAL)

Usagi's moniker really goes well with the whole moon motif. Her full name is Usagi Tsukino; tsuki means "moon" and usagi means "rabbit." It was inspired by a Japanese legend about a rabbit that's nomming on mochi while sitting on the moon.

SON GOKU (DRAGON BALL SERIES)

Goku's birth name Kakarot is derived from "carrot" and his alien race, "Saiyan," comes from rearranging the syllables of yasai, the Japanese word for vegetables. Most of Goku's friends and foes are also named after random food and objects.

N A NAME?

the names of our anime heroes!

YUGI MUTO (YU-GI-OH!)

It's time to Du-du-du-duel! Yugi's name means "game" in Japanese, which makes total sense since he is the king of card games after all.

NARUTO UZUMAKI (NARUTO SERIES)

We all know the saying "you are what you eat," right? Well, Naruto's name translates to "fish cake." It's that white flower-shaped bit in your ramen—which happens to be the ninja's fave nosh. Believe it!

MONKEY D. LUFFY (ONE PIECE)

Well, the pirate's first name is a no-brainer but what about his last name? One Piece creator Eiichiro Oda explained that he chose Luffy's name 'coz it sounded cool. It was totes made up and is a great fit for the wacky king of the seven seas.

ASH KETCHUM (POKÉMON SERIES)

Our fave Pokémon master's Japanese name is Satoshi, taken from Pokémon vgame creator Satoshi Tajiri. His surname, Ketchum, is a play on words from the show's English tagline, "Gotta Catch 'Em All!"

BAT ARSENAL

WE SIFTED THROUGH SOME EPIC BAT TECH TO SUSS OUT WHAT'S REAL AND WHAT CAN ONLY BE FOUND ON THE REEL!

BATARANG

These shuriken-like weps come in different types: explosive, electric, magnetic, and even remote-controlled ones.

RL VERSH: The closest thing we have to the Caped Crusader's Batarang is the ballistic knife. This wep has a detachable blade that can be fired across a distance of up to five meters.

CLOAKING DEVICE

This rad gadget can turn Batman invisible and impervious to a certain amount of heat.

RL VERSH: At the mo', we only have paraxial cloaks which use four lenses to hide objects from plain sight.

EMP GUN

This blaster can shut off nearby lights as well as disable machinery, like when Bats stopped a criminal's motorcycle in *The Dark Knight Rises*.

RL VERSH: EMP weps are real! The U.S. military is working on tech called the CHAMP or Counter-electronics High-powered Microwave Advanced Missile Project, which is designed to knock out electrical grids and comms.

EAR MICROPHONE

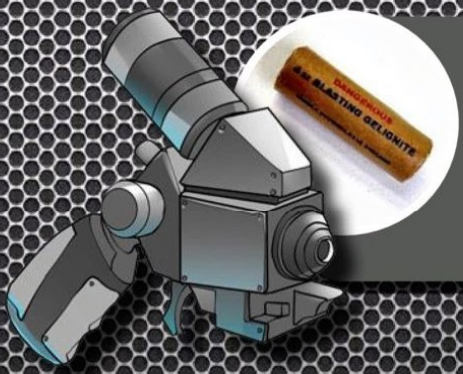
Inside Batman's cowl is a small microphone that allows him to amplify nearby sounds so he can conveniently overhear a baddie's diabolical plan.

RL VERSH: This tech exists IRL and you can buy it from a toy store! Yep, just look for spy gadget toys—it's most likely included in a set.

MEMORY CLOTH CAPE

The cape allows Batman to glide across short distances, say, from a rooftop to the ground. It's made from a cloth that's embedded with electric circuitry; the fabric stiffens when activated.

RL VERSH: We have hang gliders that, when tied to speedboats, can lift us up in the air so we can enjoy incredible views while on vacay at the beach. #CloseEnough



EXPLOSIVE GEL

Bruce Wayne is strong, but he can't knock down walls and floors without the help of his trusty explosive gel.

RL VERSH: The blasting gelatin was invented by Alfred Noble. It needs to be connected to a device that will detonate it though, unlike Batman's self-erupting mixture.

BOOT PROPELLERS

These neat additions to the Dark Knight's footwear enable him to glide above water.

RL VERSH: We have underwater scooters that allow us to swim fast without having to actually master the kick and paddle.

ANSWER: I FORGOT THE PASSWORD

FATAL FRIENDSHIP

NO OTHER PALS ALLOWED.

"Hello again, Macky" were the words that appeared on the 11-year-old boy's laptop monitor when he logged in.

Macky was chatting with E. Vil, a girl he met on this new social media website that everyone in school was talking about. Based on her profile picture, Macky imagined her to be cute. He couldn't really tell—the photo was of a small girl facing away from the camera. Only the back of her head was visible in the image.

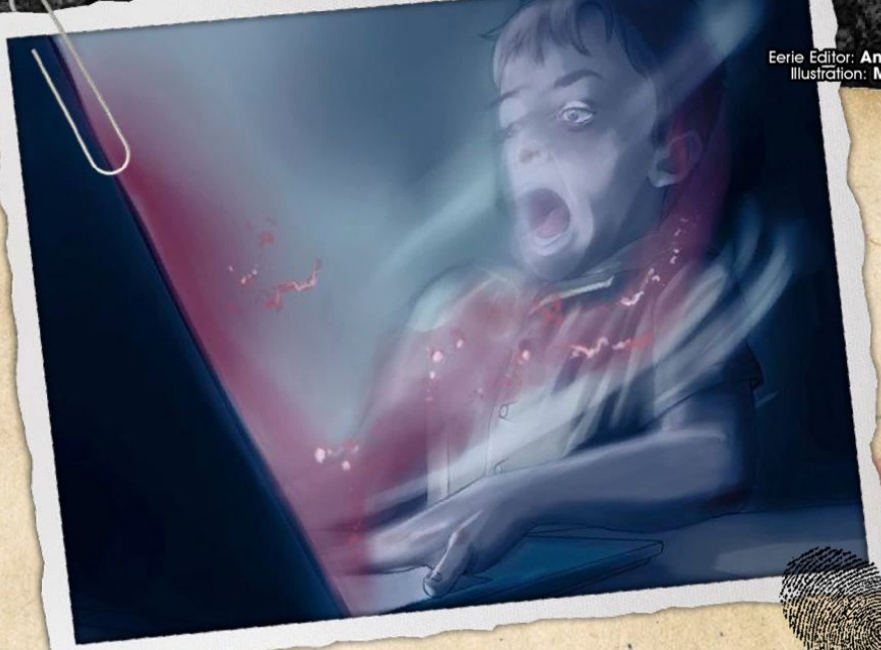
Macky was never really good at talking to girls, especially the pretty and popular ones in school. Although he was very smart for a fifth grader, his geeky interests always put him on the outs with the other students. He tried his best to make friends, but it was the Internet that provided him a sanctuary that the real world couldn't. On it, he could find other peeps with similar interests, and he could talk to girls without fear of being rejected and labeled a loser.

The night he met E. Vil, he was down in the dumps because Agatha, the most beautiful girl in his class, had called him a nerdy buttface. He had clicked on E. Vil's profile and when he sent her a hello, she quickly replied. They chatted about *Star Wars* and anime and their favorite pop rock tunes until Macky's mom told him to go to bed since it was already past midnight. It felt good to have a friend, even if it was just in cyberspace. E. Vil and Macky quickly built a relationship online, and as soon as he got home from school, he'd log in and and tell her about his day. He found it kinda strange that he didn't know any important details about her, like how old she was or where she went to school. He was simply happy to have someone to share stories with. They had a special connection that no one else would understand. What really weirded him out, however, was how E. Vil always typed things out in full, like an adult. She never used emojis like he did or abbreviated certain words like all the other kids.

"Hi, E!" he replied, typing on his laptop excitedly. "Wut r u up 2?"

"Nothing much. Just wondering how my new best friend is doing," E. Vil replied. Seeing the phrase "best friend" refer to him made Macky feel all warm and happy inside. He'd never had or been one of those before. They continued chatting about the most random stuff: Macky's favorite video games, his neighbor's golden retriever, and so on. Macky went to bed that night with a smile on his face, glad he had met this mysterious but kind friend on the web. The next day in school, Macky was eating his lunch alone on one of the benches when a girl

Eerie Editor: **Anton Umali**
Illustration: **Maku Felix**



approached him. She wore glasses and had long, dark hair. He didn't recognize her, but she was one of the prettiest girls he had ever seen.

"Hi there," the girl said. "Is that spot beside you taken?"

"Nah. You can sit here if you want," he answered.

"My name is Tara. I just moved here from the province," she said.

"I'm Macky. Nice to meet you." Macky shook her hand. He shared half of his ham and cheese sandwich with her and she gave him some of the chocolate cookies she had in her lunchbox. They spent their break getting to know each other. Tara explained how her dad was an architect who traveled a lot, moving from town to town on business. Macky told her about his mom's restaurant, and how she was the best cook who made the best packed lunches. Before they knew it, lunch was over, and they both had to head back to class. They promised to eat together again the next day.

As soon as class ended, Macky rushed home so he could tell E. Vil about Tara. When he logged in, a message from E.Vil was already waiting for him, a bright blue box flashing on the screen.

"Who's your new bestie, Macky?" it said.

That's odd. How could she have known? Macky wondered.

"Wut do u mean? :s" he typed, but before he could press send, E. Vil already had an answer for him: "YOU KNOW WHAT I MEAN!"

"I was only trying 2 b nice," he replied, scared that this was becoming too weird, too fast.

"I'm your only friend. I'm your only friend. I'm your only friend..." kept popping out until it covered the entire screen.

Macky's eyes widened and he stood up, knocking his chair down in the process. He looked at his laptop in fear. Before he could let out a scream, a beam of energy blasted out of the monitor and shot toward his body. As the predatory ray of light wrapped him in a deadly embrace, he wondered if he would ever see his new friend Tara again. It wasn't likely. Now, he would spend the rest of his days with E. Vil, the only friend he'd ever know.

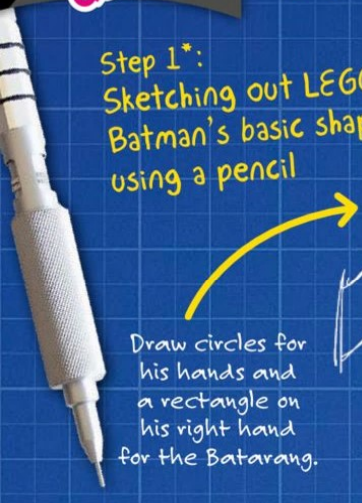
How To Draw:

Step 1*: Sketching out LEGO Batman's basic shapes using a pencil



Use half ovals for his cowl.

Add Bats' cape by drawing a big triangle (minus the tip).

Draw circles for his hands and a rectangle on his right hand for the Batarang.

Draw squares and rectangles for Batman's head, torso, legs, and feet.

*Remember to sketch lightly during steps 1 and 2 so that step 3 will be easier!

Step 2*: Deets, please!

Sketch in his eyes, mouth, and cowl using basic lines and shapes.

Use straight and curved lines to add texture to the Dark Knight's snazzy suit. Draw squares on his waist for his utility belt, and rectangles and semi-circles for his arms and hands.

Don't forget to add Batman's logo.

Add details to his Batarang, cape, and legs.

Artist Fartist: **Elmer Damaso**

LEGO BATMAN

Step 3: Finishing touches

Using a combo of thick and thin strokes, ink your drawing over the sketch details. Erase the pencil marks when the ink dries up.

Nanananananana, Batman!

Color your art and do a Bat breakdance! The Caped Crusader's suit is black, and his chest logo and utility belt are yellow. Fill in Batsy's cape and wep with different shades of gray to add depth to your art.

3DS gamers, rejoice! Yoshi is invading your handhelds in *Poochy & Yoshi's Woolly World*! The game will include the same content as the original Wii U versh and is jam-packed with bonus levels and other extra features. Are ya ready to unravel this yarn of a tale?

POOCHY WHO?

Say hello to Yoshi's sidekick!

Don't be fooled by his adorkable looks 'coz Poochy is one powerful pup. This dog can walk on spikes and lava, making him invincible. Not only can Yoshi hop on the K-9 to avoid obstacles, but up to two Yoshi players can hitch a ride at once. You can summon Poochy's services by using a Power Badge or purchasing a Poochy Amiibo fig. In the handheld game, special levels put Poochy in the spotlight. Your objective in these levels is to collect as many beads as possible.

DIYY (DO-IT-YOURSELF YOSHI)

Customize your very own cuddly dino!

The handheld versh has a Yoshi creator feature where you can choose from seven colors, weave patterns, and doodle a design on Yoshi's "skin." We imagine that this would be a supah cool entry for the Awesome Avatars section of Gamers United. *wink*

DYK? Poochy first appeared in the 1995 game *Super Mario World 2: Yoshi's Island.*

'S WOOLLY WORLD

PUPPY POWER!

The Poochy-Pups are here to save the day!

These critters are exclusive to *Poochy & Yoshi's Woolly World*. They help Yoshi sniff out hidden loot and secret areas. You can string along three Poochy-Pups on your journey. How will ya know if they've struck gold? They'll run toward the spot and start barking and jumping like mad.

DINO-MITE!

Show off your art skills and draw what your Yoshi design would look like.

BOSS BABY

It's a *kawaii* battle of epic proportions!

Uh-oh! Bowser uses the magical Wonder Wool to grow bigger in size. How does our heroic dino deal? By throwing larger balls of yarn at him, natch! There are eight balls of Wonder Wool that hover around Mega Baby Bowser and act as a shield. Using the gigantic yarn lying around the battle stage, hit each piece to defeat this boss and win the game.

DYK? One of the stages in the game made an appearance in *Super Smash Bros.* for the Wii.

DIGIMON WORLD:

Digimon World: In the first game, you travel to the Digital World via your V-Pet device. It's your job to save File Island by bringing back all the missing Digimon and defeating Machinedramon before it's too late.

Digimon: ReDigitize: This game takes place seven years after the first one. This time, you return to the DigiWorld via the Digital Monster MMORPG. You'll have to rebuild File City and crush the new baddie, Vitium!

OLD DATA, NEW MEMORIES

DYK? The game has 63 more 'mons than *Digimon: Re:Digitize Decode.*

NEXT ORDER

TOILET TIME

Here's how to recruit Numemon and nab extra toilets.

In the Forest Path, go east to find Numemon. To recruit him, you'll need to give him five Digishrooms. The shrooms are hard to spot because they're green like the grass and trees, so press the "R" shoulder button to zoom in. Here's another trick: Leave the area for a bit so the Digishrooms will respawn. Once you've collected all the Green Digishrooms, give them to Numemon and challenge him to a battle. If you defeat him, he'll join your party and give you one Portable Toilet (read: a special item that your 'mon needs when you're traveling) every day! Score!

I AM THE ALPHA!

Defeat Omegamon Alter-B!

This boss packs a ton of damage, so stock up on healing items before you face him. Your Digimon are weak against him in their regular forms, so unleash all their special attacks to cause damage. Pro tip: Combine the ExE-volutions of ShineGreymon and MetalGarurumon in order to form Omegamon. His attacks are super effective against this boss!

DYK? Unlock Susanoomon by fusing MagnaGarurumon and EmperorGreymon!

DESIGN

DANIEL CABUCO

Principal Artist, Sony Interactive Entertainment (makers of *Lost Planet 3*)

KZ: How hard is it to design a character?
DC: [It's difficult to develop a character] for licensed titles like SpongeBob 'coz everybody knows him. Everyone already has opinions on how the character is supposed to look like.

KZ: Any advice for our artsy KZers?
DC: [To get inspired,] you must immerse yourself in everything (movies, T.V., plays, books, etc.) and when you're super saturated, you'll come out with something cool.

KZ: What kinda skills do aspiring vgame artists need?
DC: Master the basics like drawing and painting. The [video game] technology may be constantly changing but there will always be a need for people with strong artistic abilities. Follow your passion and commit to it so you can get really good at art!

CARLOS PINEDA

Game Designer, ReSpawn Entertainment (makers of *Titanfall*)

KZ: What do you wanna tell our *KZ* gamers?
CP: Stay in school and study math and science (especially physics!). Make games in your spare time.

HONG LY

Senior Concept Artist, Riot Games
(makers of *League of Legends*)

KZ: How did you end up as a vgame artist?
HL: I grew to love the *Street Fighter* series while working as a security guard for a video game store. Because I wanted to design *SF* characters, I went to art school.

KZ: What's it like working at Riot Games?
HL: I get to work on whimsical stuff. Anything goes and there's so much creative freedom. You can make characters wear muscle shirts, basketball jerseys, *Sailor Moon* uniforms—you can draw anything!

KZ: Any cool plans for the future?
HL: I'd like to work on a zombie project!

KZ: If both of you [Daniel and Hong] could collab, what kinda vgame would you make?
DC and HL: We would make a third-person action adventure with strong character development. Prolly a horror title since we both like monsters!

KZ: Any future projects you wanna work on?
CP: I've always wanted to work on a game that's based on fairy-tale characters.

KZ: Are there any artists that you fanboy over?
CP: I admire Shigeru Miyamoto for game design, Salvador Dali for visual art, and Lin-Manuel Miranda for music and theater.

How can I catch the Ultra Beasts in *Pokémon Sun*?

Think of Ultra Beasts as Legendary Pokémon. You gotta save your game right before you try to catch 'em, and bring lotsa Beast Balls, revives, and potions. But first, you gotta accept the mission from the old man who asks you to go to the islands where the UBs appear. Warning: You have limited Beast Balls, so make sure you only use them when you're certain the UBs won't escape.

READER REVIEW

Fonzie Benitez tells us all the awesome things about *Agar.io*!

Gameplay

Agar.io is an online multiplayer game where you play a tiny blob that must absorb your opponents in order to grow bigger.

Graphics

The game shows a blank map with blobs doing tricks like splitting, eating, and combining.

Sound

I think the game would be better if they added SFX and music.

Replay

If you get eaten by bigger blobs, you restart the game as a tiny blob. Leveling up unlocks more slick skins, so your blob won't just be a solid-colored one.

Overall

Agar.io is addictive and will make you want to play it over and over again. It's one of those games where you'll always get eaten when you're just starting out, but you will deffo own the game once you get the hang of it.
